

Joymax

Blend of organic acids

Ingredients

Formic acid	: 30%
Ammonium formate	: 24%
Propionic acid	: 3%
Citric acid	: 0.5%
Lactic acid	: 0.5%
Acetic acid	: 8.5%
Copper sulfate	: 0.5%

Description

Joymax is an unique highly concentrated blend of a organic acids preparation specially formulated for animal drinking water. It combines buffered, synergistic organic acids to provide strong acidification that maintains a stable pH and create unfavorable condition for pathogen. It effectively disinfects water, removes and prevents biofilm buildup and ensures clean waterlines. It reduces the risk of waterborne diseases. It improves digestion, enhances feed utilization and supports gut health by creating unfavorable condition for pathogen. It promotes beneficial bacteria.

Function

Organic acid:

- Lower the pH of drinking water & GI tract.
- Create unfavorable condition for pathogen in GIT.
- Help in activating pepsinogen enzyme.
- Enhance digestion & nutrient absorption.
- Maintain balance microbiota.

Copper sulfate:

- Acts as cofactor of many enzymes such as Superoxide Dismutase (SOD), Cytochrome c oxidase etc.
- Helps in bone & tissue formation.
- Supports in brooder pneumonia,

Features

- Buffered technology ensures pH stability even after dilution
- Synergistic organic acids blend
- Rapid pH reduction with long lasting efficacy
- Non-corrosive, non-irritating, non-volatile and residue-free for safe, convenient application.

Benefits

- Lower water & gut pH
- Disinfects drinking water
- Maintains balance gut flora
- Helps in reducing diarrheal incidence
- Removes and prevents biofilms buildup
- Reduces antibiotic use
- Improves FCR
- Better growth & production
- Improves egg shell quality and egg production.

Use

- During the risk of waterborne diseases.
- Any stress (Heat stress, weather change, transport, diseases, beak trimming etc.)
- Feed transition
- During 1st week of life
- During/After antibiotic use
- Enteric disease challenges.

Inclusion rate

Routine application:

1ml / 2-3 L drinking water. Use 2-4 times per week.

Water line cleaning:

Use 10 ml/L to water lines and soak overnight.

Or as directed by the registered veterinary physician or nutritionist.

Withdrawal periods

Meat & Egg: 0 (Zero) day

Storage

Store below 30°C temperature, protected from light and in a dry place. Keep out of reach of children.

Packing

25 L.

Manufacturer by:

WEIFANG ADDEASY BIO-TECHNOLOGY CO., LTD.

Address: The North of Xinhai Street, East of Hailin Road
Advanced Manufacturing Industry Park Binhai Developing District,
Weifang City, Shandong Province, China
